SpotLog

SpotLog is an app and website for Trainspotters that runs on Android smartphones iPhones and iPads. The SpotLog app allows you to record loco and unit numbers, keep a log of trains seen and mark the sightings off in the app's 'book' section. The SpotLog website includes a database of railway vehicles, including locomotives, carriages, multiple units, trams and metros. The data covers the UK and many European railway networks.

SpotLog data is maintained and updated by SpotLog users from many different data sources. SpotLog data is not official and makes no claims to accuracy. The data in the website and app is offered on face value. The SpotLog team makes every effort to keep the data accurate and up to date and accepts no liability for inaccuracies. We are always happy to receive corrections and updates through the SpotLog website or by email to updates@spotlog.org

<https://spotlog.org>

UKPTR: UK Preserved Trams

This is a VERY draft set, with no promises or plans to complete it. I'm just adding items as I find them

IF anyone would like to take this set on to work on it and complete it, you'd be very welcome.

Birkenhead

Neath

Neath Gas Tram

Gas Powered Tram

Neath Corporation took over the tramway services previously provided by the Neath and District Tramways Company. Unlike other local authority tramway modernisation programmes, Neath Corporation opted for town gas powered tramcars, The British Gas Traction Company supplied the tramcars, which stored town gas under compression in cylinders.

Said to be the world's only surviving gas powered tram. Used in Neath until the 1920s

Introduced	1896
Withdrawn	1920

Tyne & Wear

Tyne and Wear Metro

Class 599 Metrocar

The Tyne and Wear Metrocars are a fleet of light rail vehicles manufactured by Metro-Cammell for the Tyne and Wear Metro in North-East England between 1978 and 1981.

For operation on Network Rail controlled tracks between Pelaw Junction and Sunderland, they are designated on TOPS as the British Rail Class 599.

Most were refurbished between 2010 and 2015 by Wabtec Rail at Doncaster Works and have been replaced by Class 555 rolling stock from 2024 onwards.

System	1500V DC
