SpotLog

SpotLog is an app and website for Trainspotters that runs on Android smartphones iPhones and iPads. The SpotLog app allows you to record loco and unit numbers, keep a log of trains seen and mark the sightings off in the app's 'book' section. The SpotLog website includes a database of railway vehicles, including locomotives, carriages, multiple units, trams and metros. The data covers the UK and many European railway networks.

SpotLog data is maintained and updated by SpotLog users from many different data sources. SpotLog data is not official and makes no claims to accuracy. The data in the website and app is offered on face value. The SpotLog team makes every effort to keep the data accurate and up to date and accepts no liability for inaccuracies. We are always happy to receive corrections and updates through the SpotLog website or by email to updates@spotlog.org

The British Rail Class 555 Metro is a class of electric multiple units, commissioned and built for the Tyne and Wear Passenger Transport Executive (Nexus) by the Swiss company Stadler Rail, at a total cost of £362 million, for use on the Tyne and Wear Metro.

For operation on Network Rail controlled tracks between Pelaw Junction and Sunderland, they are designated on TOPS as the Class 555.

Introduction into service is expected from the end of 2024. When the fleet is fully delivered, it will replace the Tyne and Wear Metrolinks, which have been in use since the line opened in 1980.

Battery Locomotives

Nexus Battery Locos

In addition to passenger trains, the Tyne and Wear Metro also operates three battery-electric locomotives (numbered BL1–BL3), which were manufactured by Hunslet in 1988, which are used for maintenance and repair work.
